Financial Monitoring (Midterm_Lab Exam)

Filename: Mid_LabExam_Surname.pdf

Drive: sent to our GC

Note:

Choose 1 or 2 of your classmate to be your client

INSTRUCTIONS:

Step 1: Setup Financial Fields

1. Log into **Jira Free**.

Welcome back, BIANCA

It's free for up to 10 users - no credit card needed.

2. Opened project. Since Jira Free doesn't allow "Custom Fields" in the same way as Paid, we will use the "**Original Estimate**" field or "**Labels**" to represent dollars.
3. For this lab, we will use **Labels** to categorize costs and the **Description** field to act as our ledger.

Step 2: Create the TCO "Buckets"

Created three tasks in your backlog to represent the **Total Cost of Ownership**.

1. **Task 1: [TCO] Vendor Contract Value.** (Label: Direct_Cost)

Task 1: Vendor Contract Value

To Do ▾

Description ▾

Vendor Contract Ledger

Vendor: Development Team

Contract Duration: 3 Months

Monthly Vendor Cost: \$8,000

Total Contract Value: \$24,000

Ledger Record

Month 1 Payment: Pending

Month 2 Payment: Pending

Month 3 Payment: Pending

Step 3: Log an "Invoice Audit" (Collaboration)

1. **Partner A (The Vendor):** Created a "Task" titled Invoice: Month 1 - Development Services. In the description, write: "Charge: \$8,000 for 160 hours."

Invoice: Month 1 – Development Services

To Do ▾

Description ▾

Invoice Details

Charge: \$8,000 for 160 hours.

Vendor: Development Team

Hourly Rate: \$50

Total = \$8,000

Status: Pending Verification

Partner B (The Client Manager): Review the invoice. Add a **Comment** performing a "Verification Check":

Check 1: Does the \$8,000 match the contract rate?

Check 2: Were there any SLA penalties this month to deduct?

Approval: If okay, move the ticket to a column named **"Approved for Payment."**

...

I have started reviewing the invoice titled "Invoice: Month 1 – Development Services." Let me perform the verification checks.

For the Contract Rate Verification The invoice states a charge of \$8,000 for 160 hours of development work. The agreed contract rate is \$50 per hour. Calculation: 160 hours x \$50/hour = \$8,000 The invoice total matches the contract rate.

Based on my review, the invoice appears correct.

just now

...

Bermudez: I checked the service performance report for this month and there were no SLA violations or delays recorded, so there are no penalties to deduct. The invoice is approved for payment. I will now move this ticket to the "Approved for Payment" column.

👍

Step 4: Benchmarking & Reporting

1. Created a task entitled Quarterly Benchmarking Review.

Quarterly Benchmarking Review

BackLog ▾

Description

Market vs Current Vendor Comparison

Monthly Cost	\$8,000	\$8,800	rate is lower than the market average.
Service Quality	Good	Average	Vendor provides lower monthly cost compared to market pricing.
Response Time	Within SLA	Standard SLA	Vendor performance meets expectations.
			Vendor maintains acceptable response time.

Analysis

The vendor's hourly rate is slightly lower than the current market average, indicating a cost-efficient outsourcing arrangement.

- "Market vs. Current" comparison (Table in the description).

Category	Current Vendor	Market Average	Analysis
Hourly Rate	\$50/hr	\$55/hr	Current vendor rate is lower than the market average.
Monthly Cost	\$8,000	\$8,800	Vendor provides lower monthly cost compared to market pricing.
Service Quality	Good	Average	Vendor performance meets expectations.
Response Time	Within SLA	Standard SLA	Vendor maintains acceptable response time.
Overall Value	Cost Efficient	Standard Market Value	Vendor offers good value for cost.

3. Checked **Created vs. Resolved** "Financial Issues" are being cleared as fast as they are being raised.

Reports

Analyze and track your team's work by reporting on the project's activity.
